

## **ENSE 281 – GROUP E PROJECT (HOMEGIGS)**

### **USABILITY QUESTIONNAIRE**

- ❖ What is first opinion/idea after hearing the business name as HomeGigs?
- ❖ Does the name HomeGigs resemble what we serve as a business/project?
- ❖ Do you think enhancing our low fidelity prototype each time was a good thing?
- ❖ Do you think workers will be able to find all sorts of jobs easily when categorized?
- ❖ What is your opinion on the general appearance of all low fidelity prototypes?
- ❖ Do you think the high fidelity prototype follows the designs in low fidelity sketches?
- ❖ Will it really benefit a worker/customer if we introduce a search bar?
- ❖ Do you think we should explore more creative themes or colours?
- ❖ Is interactivity smooth in the application or should the interaction time be reduced?
- ❖ Do you think the flow from dashboard to accepting/posting a gig is reasonable?
- ❖ Is there anything in the prototype which needs more attention or improvement?
- ❖ Which aspects of the high fidelity prototype feel most successful?
- ❖ Do you think reject/cancel and abandon/completed buttons are distant enough?
- ❖ Will the abandon option to the client provide an excuse for the client to be unfair?
- ❖ How much would you rate (on a scale of 1 to 10) to our designed prototype?
