

CHANGE REQUEST	
Project Name	HomeGigs
Requested by	ENSE 281 Winter 2026 – Group E
Request Date	03 rd March 2026
Description of the Requested Change (Completed by the Requestor)	
Name change from HoldHouse to HomeGigs was requested due to arising concerns amongst people regarding the services provided by the platform. The previous name was not aligning with the nature of work provided on the platform and people were unable to relate.	
Benefit of the Requested Change (Completed by the Requestor)	
The name change will make it easier for people to understand that we are a business that allows people to post home services (gigs) which they need to be done and also allows the skilled workers to find them and provide those services, as the name HomeGigs states.	
Impacts to the Project (Completed by the Project Manager)	
The major reason for the change is brought about by the fact that we want the name to be as self-explanatory as possible. We won't have to explain about our application in detail, and anyone would be able to understand without extra context. There would be no technical impacts.	
Change Request Decision (Completed by the Project Change Committee)	
The change was fully approved by class instructor, Dr. Tim Maciag.
